September 2

6:30 p.m. - 9:00 p.m.

The Art Center

Art Exhibit Open

September 2 - 30

The Art Center

Join HopeWest for an Art Show featuring art created by local health care workers and volunteers. Art will be on display at the Grand Junction Art Center in September 2022, launching at the Art Center's First Friday event on September 2.

All Mesa County health care workers and volunteers are invited and we would love to have people from your organization participate. We are looking for images and other artwork celebrating the compassion, commitment, caring hearts and inclusive spirits that health care providers show every day in our community.

Multiple art forms are encouraged. So think creatively – from quilts to paintings, photography to sculpture or collage. Pieces must be original to the artist and have been created within the past two years. Prizes will be awarded to first, second and third places in each category.

The artist's name and health care organization will be displayed with each submission. The artist may also include a purchase price if they are interested in selling. The Art Center will keep a 30% commission on all sales.

The Art from the Heart committee reserves the right to exclude art that may be seen as distasteful for a health care related exhibit or to reduce the number of entries by any one individual if space is limited.
